## Personal Statement

I am a second-year Computer Science student with a deep passion for innovative problem-solving and lifelong learning. Driven by curiosity and equipped with strong analytical skills, I enjoy exploring diverse subjects and expanding my knowledge. My primary interest lies in Artificial Intelligence, with a focus on leveraging its potential to solve real-world challenges and drive social impact. I thrive in collaborative environments, excelling in teamwork and effective communication. To further develop my expertise and contribute meaningfully to the field of AI, I am actively pursuing opportunities to engage with open-source projects. My goal is to apply my skills to address current challenges in AI while creating solutions that benefit the world.
