Personal Statement

I am a second-year Computer Science student, passionate about innovative problem-solving and continuous learning. Being curiosity-driven and possessing strong analytical skills, I am able to explore and learn diverse subjects. I am strongly interested in learning about AI and leveraging it to address climate change. I thrive in collaborative environments, excelling at teamwork and communication. Therefore, to further hone my skills and address the current challenges of AI, especially for social good, I am aiming to make active and meaningful contributions towards open-source projects relevant to the field.
